

STELLRAM

BALL NOSE CONTOUR MILLING CUTTER

The 5505VX.. Ball Nose Cutters have a reinforced design feature, which delivers a high volume of chip removal.

The chip breaker geometry provides excellent chip control and evacuation during machining and prevents edge build-up.

5505VX Roughing Ball Nose Cutters are ideal for roughing and semi-finishing profiles and complex contours.

One grade and one geometry are qualified to machine Steel, Alloyed Steel, Stainless Steel, High Temperature Alloys and Cast Iron.

5505VX

5505VX:
Diameter Range = 16mm to 50mm
