STELLRAM

ROUND INSERT MILLING CUTTERS WITH INDEXATION

The **7710VRD** cutter series is excellent for heavy roughing and semi-finishing of all materials. Specifically for Stainless Steels, High Temperature Alloys as well as for Unalloyed Steel, Alloyed Steel and Cast Iron.

This cutter design is perfectly suited for face milling forgings where material allowance is unpredictable.

The 7710VRD cutter series with anti-rotation ensures a precise number of indexes per insert.

This unique patented pocket design prevents the inserts from rotating in the pocket, during heavy feed machining and unstable conditions.

This 20mm insert size is 8 times indexable that gives a maximum possible usage of the available edges.

7710VRD20

7710VRD20:
Maximum a_p = 10mm
Diameter Range = 63 to 160mm

Note: Larger diameter Shell Mill Fixation cutters with interchangeable cartridges are available. Please see page A156.
